Overview

Cape Cod's briny seaports, sandy beaches, delectable seafood, and diverse landscape of salt marshes, pine forests, and cranberry bogs can all be experienced from the 27.5-mile Cape Cod Rail Trail. Completely paved and mostly flat, the trail is a popular destination for families and recreational cyclists.

About the Route

The southwestern end of the route begins at the long-awaited Yarmouth extension, where it meets a local bike trail at Peter Homer Memorial Park. Crossing Station Avenue on a pedestrian bridge, the trail rolls through woods for 2.5 miles to a 160-foot bridge over the Bass River

(scheduled for opening in late 2018; signs will be posted at the trailhead regarding the bridge status), and then another pedestrian bridge over MA 134 to an old trailhead in South Dennis.

The next 3 miles offer ample opportunities to picnic, indulge in ice cream, or detour to other trails and towns.

Heading north from the rotary on the Cape Cod Rail Trail, the trail soon passes kettle ponds formed when glaciers melted, leaving behind pockets of freshwater enjoyed as swimming holes today. Quaint general stores provide refreshments that can be consumed on-site or at trailside picnic tables. Near mile 14, the trail reaches Nickerson State Park, which offers swimming pools, picnic areas, walking and biking trails, restrooms, and camping throughout its 1,900 acres. The 8-mile forested trail here makes for a shady, cool ride.

The path joins a small road for a short distance 1.5 miles past Nickerson, crosses a bridge, and enters the bustling tourist town of Orleans. Boasting a variety of restaurants and specialty stores, this former whaling seaport is a good place to stop for lunch, shop, or visit historical sites. About 3.5 miles past Orleans trail users will see signs to the Cape Cod National Seashore's Salt Pond Visitor Center, located about 0.5 mile off the trail.

The remaining miles offer public campgrounds and coastal overlooks. The trail's northeastern endpoint, Wellfleet, occupies a narrow strip of the cape, flanked by the Atlantic Ocean and Cape Cod Bay. A mile trip east on Lecount Hollow Road from the trailhead is rewarded with large dunes and a sandy ocean beach. Locally grown oysters are available in many restaurants and honored in October's Wellfleet Oyster Fest.

Connections

In Harwich, the Cape Cod Rail Trail connects to the [Old](#)

Cape Cod Rail Trail

Massachusetts

States: Massachusetts

Counties: Barnstable

Length: 27.5miles
