Liberty Trail

Oklahoma

The Liberty Trail runs for 9.5 miles between New Orleans Street (101st Street) by Northeastern State University and where it meets

The Liberty Trail runs for 9.5 miles between New Orleans Street (101st Street) by Northeastern State University and where it meets the [Mingo Trail](#) near Creek Turnpike and Mingo Valley Expressway. The trail follows the South Loop of the Broken Arrow toll road until it reaches the university, where the Liberty Trail ends.

Compared with other Tulsa trails, the Liberty Trail passes through more greenspace (toll road aside), linking the university with neighborhoods to the west and providing the perfect non-motorized way to access the city. The trail is hilly in some areas.

Liberty Trail

Oklahoma
